## Dallas Area RCM Team Report

04/06/2014

Hello DASC members,

Here is the report from the Dallas Area RCM team:

### CAR Workshop

The RCM team held another CAR workshop at Last House on the Block on March 22, 2014. Five members were in attendance. In the workshop the six motions from the Conference Agenda Report were discussed.

Last month each GSR was asked to take motion tally sheets to their group business meetings to get the conscience of their groups. The GSR's are to provide the results from their groups to the RCM team by today, April 6, 2014. The RD has to have our responses by the end of this week.

The DASC needs to decide how the responses from their groups should be provided to the RD -- should individual member responses be tallied separately or should the conscience of each group as a whole be sent?

### Regional Service Conference

The idea from Ft. Worth Area to reinstate the H&I committee at RSC failed at the March 2014 DASC. The RCM team will take the conscience of the DASC on this idea to the Regional Service Conference in June.

The RCM team will share information about the Dallas Area H&I committee service activities with the H&I Regional Coordinator at the next RSC. This idea was approved in the last DASC.
